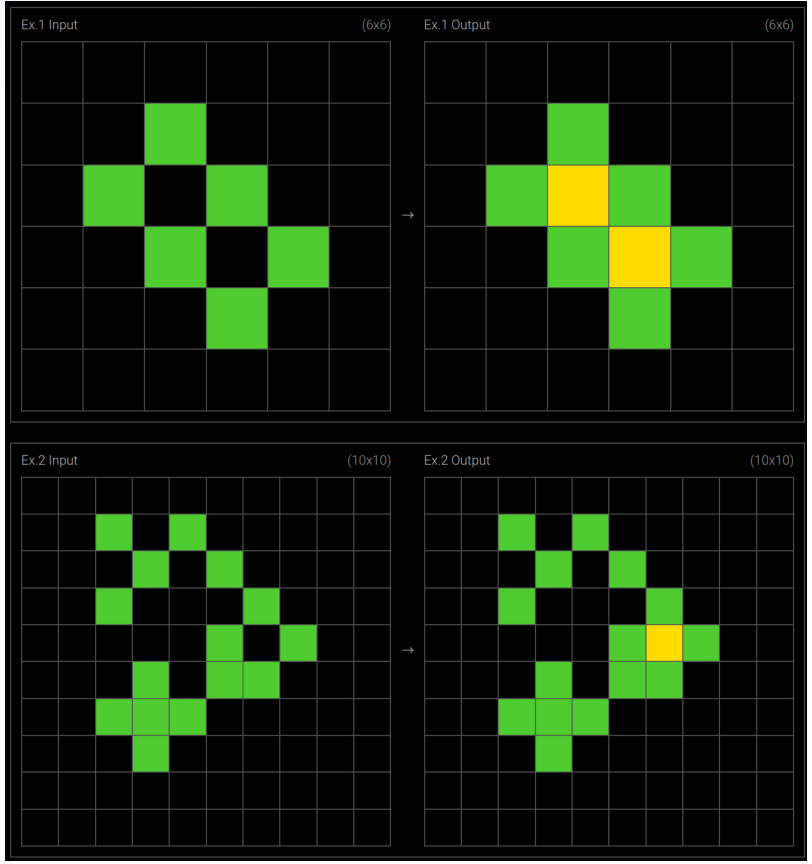
# Goal

- Will *agents take over the world* or are we living in a world of *approximate retrieval*? Is AGI nearly here?
- Can an LLM solve novel problems?
- You – think on a novel problem, meet interesting folk, get your qs answered

# Agenda



- ARC AGI solved (so far) via brute force https://arcprize.org/tasks?v=1
- Quick look at older examples
- Try an online puzzle together
- Now->64x64 grid, frame/turn based, goal never revealed (we figure it out!)

ARC-AGI-2: A New Challenge for Frontier AI Reasoning Systems

François Chollet* Mike Knoop Gregory Kamradt Bryan Landers
Henry Pinkard

May 20, 2025

| Model | ARC-AGI-1 | ARC-AGI-2 |
|---|---|---|
| o3-mini (High) | 34.5% | 3.0% |
| o3 (Medium) | 53.0% | 3.0% |
| ARChitects (ARC Prize 2024) | 56.0% | 2.5% |
| o4-mini (Medium) | 41.8% | 2.4% |
| Icecuber (ARC Prize 2020) | 17.0% | 1.6% |
| o1-pro (Low) | 23.3% | 0.9% |
| Claude 3.7 (8K) | 21.2% | 0.9% |

- ARC AGI 1 (few years), now ARC AGI 2025
- 400+ problems, public and *private* (offline) set
- ARC AGI 1 “solved” by **GPT o3 88%** public $70k (xmas)

# Why do we care?

Benchmarks matter most when they reveal a gap that did not look like a gap before. By that measure, the first two ARC benchmarks earned their place: ARC-AGI-1 surfaced the emergence of large reasoning models, and ARC-AGI-2 tracked how far test-time compute scaling could go. ARC-AGI-3 is pointing at a different problem.

https://www.datacamp.com/blog/arc-agi-3

**Can we help the machines understand "our world" in a way that approximates how children learn?**

https://arcprize.org/tasks?v=3

# Stages for the day

- How do *you* solve these tasks?
- Can you get the provided agent running?
- How *might* you develop an agent?
- Can you beat the (very stupid!) benchmark code?

# Outcome for the day

- Have fun on a hard benchmark
- Ponder how *we* solve problems
- Push the edge of what we can do with agents
- Learn from each other

# Day guide

- Intros - now
- Show and tells scattered throughout (LIST THEM)
- We buy our own lunch
- **Please collaborate** (don’t isolate!)
- Pub at 4.30, so winding up for 3.30pm
