playgroup – deep dive LLM day

Mor Consulting 2026-04

@IanOzsvald – ianozsvald.com

Interim Chief Data Scientist

- Strategist/Trainer/Speaker/Author 25+ years
- Figuring where LLMs fit into DS

Part of **PyData - 165 groups**

PyData London Meetup

4.7 ★★★★☆ 2576 ratings

Where are the creatives?

London, United Kingdom

15,298 members · Public group

Organized by **NumFOCUS, Inc.** and **14 others**

Goal

- Will *agents take over the world* or are we living in a world of *approximate retrieval*? Is AGI nearly here?
- Can an LLM solve novel problems?
- You – think on a novel problem, meet interesting folk, get your qs answered

Agenda

- ARC AGI solved (so far) via brute force
- Quick look at older examples
- Try an online puzzle together
- 64x64 grid, frame/turn based, goal never revealed (we figure it out!)

ARC-AGI-2: A New Challenge for Frontier AI Reasoning Systems

François Chollet* Mike Knoop Gregory Kamradt Bryan Landers
Henry Pinkard

May 20, 2025

Model	ARC-AGI-1	ARC-AGI-2
o3-mini (High)	34.5%	3.0%
o3 (Medium)	53.0%	3.0%
ARChitects (ARC Prize 2024)	56.0%	2.5%
o4-mini (Medium)	41.8%	2.4%
Icecuber (ARC Prize 2020)	17.0%	1.6%
o1-pro (Low)	23.3%	0.9%
Claude 3.7 (8K)	21.2%	0.9%

- ARC AGI 1 (few years), now ARC AGI 2025
- 400+ problems, public and *private* (offline) set
- ARC AGI 1 “solved” by **GPT o3 88%** public $70k (xmas)

Stages for the day

- How do *you* solve these tasks?
- Can you get the provided agent running?
- How *might* you develop an agent?
- Can you get that agent solving?

Day guide

- Show and tells scattered throughout (LIST THEM)
- We buy our own lunch
- Please collaborate (don’t isolate!)
- Pub at 4.30, so winding up for 3.30pm

Outcome for the day

- Have fun on a hard benchmark
- Ponder how *we* solve problems
- Try to push the edge of what we can do with agents
